INTEGRATION OF ACID-ETCHED GLASS IN EXTERIOR GLAZING SYSTEMS

Walker Glass is proud to offer architects and specifiers this Continuing Education Course approved by the AIA and the GBCI. The purpose of this presentation is to provide in-depth knowledge of the use of acid-etched glass in exterior applications. We will provide the most up to date and detailed information to help you understand how design, functional, performance and sustainable objectives can be achieved with this type of product.

Program number: WA1703
Duration: 1 hour, LU-HSW

INTEGRATION OF ACID-ETCHED GLASS IN EXTERIOR GLAZING SYSTEMS

PROGRAM OUTLINE

Who is **Walker Textures**®

Copyright Materials

Learning Objectives

What is the Acid-etch Process?

Acid-etched Glass Benefits

Processes Compatible with Acid-etched Glass

Light Diffusion Properties

Surface Resistance

Appropriate Concealment

Privacy with Unrestricted Light Flow

Enhanced Color Rendering

Design & Modulation

Bird Collision Deterrence

Integration in Insulated Glass Units

Slip Resistance for Walkway Applications

Summary Analysis of Properties

LEED v4 Credits

Key Acid-etched Glass Specifications

Design Development Process

Question Period
