For Immediate Release

**PRESS RELEASE**

**STOCK, CUSTOM AND EXCLUSIVE ACID-ETCHED PATTERNS NOW AVAILABLE  
WITH THE WALKER TEXTURES™ NUANCE PRODUCT LINE**

Montreal, April 9, 2008 – Walker Glass is pleased to launch its new patterned acid-etched glass and mirror product line called **Walker Textures™ Nuance**. The patterns feature a distinctive “two-tone” acid-etched finish combination which provides a great visual and textural effect, due to the depth variation of the design. The initial program includes stock patterns and has the flexibility to offer custom and/or exclusive patterns based on the project or client needs.

Ross Christie V-P Sales & Marketing says "Nuance adds another dimension to Walker's ability to keep our clients on the leading edge in decorative glass. Patterns are an exciting extension to the full-sheet line. There is a great opportunity for our clients to even develop their own exclusive designs."

The **Walker Textures™ Nuance** products are available in glass and mirror in a wide variety of colours such as: clear, bronze, grey, black, green, blue and Starphire ultra-clear glass by PPG. Using North American float glass, the standard size is 96"x130" offered in a range of thicknesses from 3 MM to 19 MM in glass and 3 MM to 6 MM in mirror.

For additional information regarding this new product line and/or to request a sample kit, please visit [www.walkerglass.com/patterned-acid-etched-glass.html](http://www.walkerglass.com/patterned-acid-etched-glass.html).

Walker Glass Co. Ltd. is a dynamic market-driven enterprise with over 65 years of experience in the glass industry in North America. In 2003, the company launched its full surface acid-etched glass and mirror manufacturing capabilities. It remains the only such plant in North America dedicated to the architectural glass market. The full surface acid-etched products are marketed under the **Walker Textures™** brand name.
