**For Immediate Release**

**AVIPROTEK™ T**  
THE TRANSPARENT SOLUTION FOR BIRD FRIENDLY GLAZING  
BY WALKER TEXTURES™

Montreal, April 20, 2015 – Walker Glass is proud to announce the launch of **AviProtek™ T**; a barely visible bird friendly acid-etched glass solution.

“**AviProtek™ T** is the bird friendly glass product that architects have been waiting for. How many times have we heard: Do you have something invisible? Now we do! The contrast created by the UV markers and the acid etching on the outside surface of the glass is hardly noticeable by the human eye but picked up by birds. ” says Marc Deschamps, Business Development Manager.

The subtlety of the visual markers of **AviProtek™ T** is an appealing proposition as a bird safe glass. This transparent product can be used in insulated units and can be combined with a low-e glass on position 3. The design follows the 2x4 Rule established by the leading experts. It was proven to be highly effective through controlled field experiments conducted by Dr. Daniel Klem, Professor of Ornithology and Conservation Biology at Muhlenberg College in Allentown, PA.

“It is really exciting for us to be able to offer such an innovative product to our clientele. The demand for bird friendly glass products continues to grow. **AviProtek™ T** is an aesthetically pleasing product that will save birds’ lives. We believe there is a real need for this type of product in the market.” says Ross Christie, V-P Sales & Marketing.

To better appreciate the benefits of **AviProtek™ T**, you can visit us at the upcoming **AIA Show Booth 2751** or order your sample at:

Walker Glass Co. Ltd. is a dynamic market-driven enterprise with over 70 years of experience in the glass and mirror industry in North America. Innovation and creativity are at the heart of its development. In 2002, the company launched a full surface acid-etched glass and mirror product line under the **Walker Textures™** brand name. Since then, the company has added a line of custom and stock patterns, **Walker Textures™ Nuance** and a line of anti-slip acid-etched glass products, **Walker Textures™ Traction**. Furthermore, Walker offers three bird friendly glass solutions: **AviProtek™**, **AviProtek™ E\***, **AviProtek™ T**.

\*Available with Solarban®60 VT, Solarban®67 VT and Solarban®70XL VT glasses by PPG
