**FOR IMMEDIATE RELEASE**

## WALKER GLASS TAKES A NEW LOOK AT MIRRORS!

Montreal, February 16, 2016 – Walker Glass is proud to announce the launch of its specialty mirror program that will go beyond mirror made with clear glass.

The program includes four different antique mirrors that will give a touch of sophistication to any décor. Available in 6MM, 48” x 94 ½”. For a more contemporary look, mirror using low-iron, bronze or grey glass will bring a rich aspect to any style. Available in 5MM or 6MM, 96” x 130”.

“In recent years, the demand for antique mirrors has seen a steady increase. They are mainly used in traditional décor but they can also be mixed in contemporary design. As for the tinted and low-iron mirrors their usage is also increasing. In some projects we have seen the combination of un-etched and acid-etched mirrors. The mirror carries the light further into the space while brightening it up, whereas the acid-etched mirror provides that frosted look, adding depth to the glass and offering light absorption properties. This unique combination takes a new look at the traditional mirror.” says Marc Deschamps, Business Development Manager.

Take a new look today and order your sample box by visiting the Walker Glass website at: <http://walkerglass.com/products/specialty-mirror>

Walker Glass Co. Ltd. is a dynamic market-driven enterprise with over 70 years of experience in the glass and mirror industry in North America. Innovation and creativity are at the heart of its development. In 2002, the company launched a full surface acid-etched glass and mirror product line under the **Walker Textures®** brand name. Since then, the company has added a line of custom and stock patterns, **Walker Textures® Nuance** and a line of anti-slip acid-etched glass products, **Walker Textures® Traction**. Furthermore, Walker offers three bird friendly glass solutions: **AviProtek®**, **AviProtek® E\***, **AviProtek® T**. And finally, **Walker Textures® Transition** is the custom solution for gradient effects on acid-etched glass.

\*AviProtek® E is available with Solarban®60 VT, Solarban®67 VT and Solarban®70XL VT glasses by PPG
