FOR IMMEDIATE RELEASE

SIZE DOES MATTER...
INTRODUCING ACID-ETCHED GLASS VELOUR FINISH IN 100X144

Montreal, March 28, 2011 – Walker Glass is introducing a bigger stock sheet size of its acid-etched Velour finish in 6, 10 and 12 mm in 100" x 144" on clear glass.

Walker Glass is providing yet another option when ordering the Velour acid-etch finish on clear glass. The traditional 96" x 130" will remain available for all skus including acid-etched mirror and all tints. The new size 100" x 144" is available at no extra charge.

"By offering a larger stock sheet size we hope to give our customers a better cutting yield which ultimately turns into profit for them. We have inventory on the floor and are ready to fill orders." says Ross Christie, V-P Sales & Marketing

Walker Glass Co. Ltd. is a dynamic market-driven enterprise with over 65 years of experience in the glass and mirror industry in North America. Innovation and creativity is at the heart of its development. In 2002, the company launched a full surface acid-etched glass and mirror product line under the **Walker Textures™** brand name. Since then, the company has added a line of custom and stock patterns called **Walker Textures™ Nuance**.
