

BIRD FRIENDLY GLASS

(AVIPROTEK®, AVIPROTEK® E, AVIPROTEK® T)

AviProtek® products have been developed to reduce the number of bird strikes against buildings where glazing is present. Walker offers three different solutions that meet today's architectural needs.

- AviProtek® - Monolithic bird friendly glass
- AviProtek® E - Low-e coated bird friendly glass
- AviProtek® T - Transparent bird friendly glass

ENVIRONMENTAL DATA SHEET

BIRD FRIENDLY GLASS

PRODUCT CONTRIBUTION SUMMARY

LEED® v4 requirements for Building Design + Construction (BD+C)

New Construction, Core and Shell, Schools, Retail, Data Centers, Warehouse and Distribution Centers, Hospitality and Healthcare.

LEED® v4 requirements for Interior Design + Construction (ID+C)

Commercial Interiors, Retail and Hospitality

MATERIALS AND RESOURCES		PRODUCT CONTRIBUTIONS	
MR	Building Product Disclosure and Optimization – Environmental Product Declaration (EPD) Option 1 : Environmental Product Declaration (1 point) AviProtek®, AviProtek® E and AviProtek® T glass contributes to this credit due to the product out of the 20 needed for the purposes of credit achievement calculation.	Contribute	ENVIRONMENTAL IMPACTS Product-specific (EDP) Type III compliant to ISO 14025:2006
INDOOR ENVIRONMENTAL QUALITY		PRODUCT CONTRIBUTIONS	
EQ	Low-Emitting Materials Option 1 : Product category calculation (1-3 points) For the product category, walls, thermal and acoustical insulation, 100% of all products must meet the requirements.	Contribute	INGREDIENTS AND EMISSIONS Glazing is excluded from the scope of this credit. Moreover, glass is an inherently non-emitting source.
EQ	Daylight Design to maximize daylight (1-3 points) Consider how best to allocate interior space to ensure that daylight is available in all regularly occupied spaces. Enclosure design and furniture selection will affect daylight penetration.	Contribute	TECHNICAL PERFORMANCES Within an assembly, AviProtek®, AviProtek® E and AviProtek® T may contribute to this credit if design choices are coherent with the credit.
PILOT CREDITS		PRODUCT CONTRIBUTIONS	
PC	Pilot Credit 55 - Bird Collision Deterrence (1 point) Reduce bird injury and mortality from in-flight collisions with buildings.	Contribute	Within an assembly, AviProtek® and AviProtek® E with bird-safe design, patterns 211, 213 and 214, may contribute to this pilot credit according to the specifications of the architect.

It is important to consider that the total amount of possible points reflects the number of achievable points in each credit category. The product itself cannot achieve this score, as defined above, but is considered as a beneficial element in order to achieve LEED® credits.

The data included in this Environmental Data Sheet has been provided by the client and the suppliers, who are responsible for its veracity and its integrity. Vertima follows a rigorous protocol, including an on-site audit of the factory, an audit of the manufacturer's supply chain documentation, and the analysis and validation of all supporting documents. However, Vertima cannot be held responsible for false or misleading information that may cause any loss or damage suffered, caused in all or in part, by errors and omissions relative to the collection, compilation and/or interpretation of data.
